API Integration
Web Scraping
Responsive Design

PROJECTS

#SHOOK

Node.js | Express | PostgreSQL | JavaScript | AWS

SHOOK is a social betting app that turns life's everyday events into bettable moments and ensures secure and timely payment between parties. You can challenge friends on Twitter using #SHOOK and the Shook-bot will take care of the rest.

<https://www.yougotshook.com> || github.com/sixgun-bridal/shook

HQ: Custom Home Page Headquarters

JavaScript | jQuery | CSS3

This Chrome extension loads a custom home page populated with recent and trending news, a note pad, the current date and outside temperature, and access to a calculator, random joke generator and a meme generator.
