API Integration
Responsive Design

PROJECTS

coinsight

AngularJS | D3 | ES6 | Webpack | Node.js | Express | IBM Watson

A cryptocurrency dashboard, simplified. Coinsight is a Progressive Web App that generates real time public sentiment analysis to provide insights into how the price of cryptocurrencies change according to public perception.

<https://www.thecoinsight.com> || github.com/JustinHart90/coinsight

MycroLens

AngularJS | D3 | AWS EC2/S3 | ES6 | HTML5 File API | Express

A consumer-facing food tracker, allowing you to track the food you eat based on micro/macro nutrients compared to your Daily Recommended Intake and easily identify gaps in your nutrition to help improve your diet.

<http://www.mycrolens.com> || github.com/MicroNutra

SHOOK

Node.js | Express | PostgreSQL | JavaScript | AWS

SHOOK is a social betting app that turns life's everyday events into bet-able moments and ensures secure and timely payment between parties.

<https://www.yougotshook.com> || github.com/sixgun-bridal/shook

HQ: Custom Home Page Headquarters

JavaScript | jQuery | CSS3 | Chrome Extension

This Chrome extension loads a custom home page with six news sources, a note pad, the current date, temperature, and access to a calculator.
